

**LINK**<sup>®</sup> 

*LinkSymphoKnee*  
Built on TRUST 

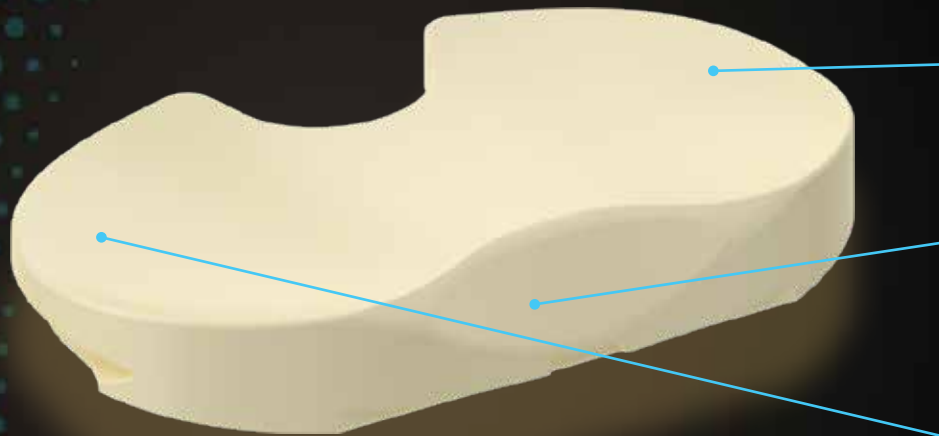

*“LINK is no longer just a revision knee company for me. The new LINK knee is my go-to for primary cruciate retaining total knee arthroplasty. The narrow nature of the implant and design of the trochlea groove gives me an implant that fits all my patients.”*

**– Brett Levine MD Midwest Orthopaedics at RUSH<sup>1</sup>**

<sup>1</sup>Dr. Brett Levine performed the first global implantation of the LSK cruciate retaining design in Chicago, Illinois in August of 2021.
